

Dr. Tim Goossens, Nutriad

Dr. Tim Goossens studied Biotechnology at Ghent University (Belgium), and subsequently worked as an academic researcher in the Laboratory of Molecular Biotechnology at the University of Antwerp. He then moved to the KU Leuven (Belgium), where he took up a doctoral project on neurodevelopment in the Laboratory of Developmental Genetics. After obtaining his Ph.D. in Biomedical Sciences in 2010, he joined Nutriad to work as an R&D Engineer. Four years later, he became Business Development Manager of Digestive Performance, a product range dedicated to gut health and animal performance in production animals. Since 2019, he is Global Technical Manager at Adisseo, providing scientific support to the Health by Nutrition portfolio.
